

Subject: Component Maintenance Manuals; Availability and Cost Data

Dear Sir or Madam,

Pacific Scientific Aerospace position and Component Maintenance Manual use policy is as follows:

Pacific Scientific designs, develops, and manufactures safety equipment under contract for various airplane manufacturers. The supply of components, products support services, and maintenance data are requirements under the terms of those contracts.

CMM data is provided under contract to aircraft operators and authorized service representatives only.

Continued Airworthiness Data that may be proprietary to Pacific Scientific Aerospace (the CMM's) is made available to all other users on a subscription basis for the standard price of \$15,000 usd for each CMM. Each manual supplement is priced at \$10,000 usd. Manuals and supplements are available in electronic or paper format, subject to the terms of use cited in those documents.

The current Pacific Scientific manual index is available in .pdf format on a FOC basis. Please see:
